Pretty lies and no concern  
When we love we never learn  
Break apart  
Crash and burn  
Couldn't handle this sharp turn  
Ten o'clock, where it stopped  
On that cold October night  
You're out there  
I'm still here

Standing where you left me  
I'm standing where you left me  
Man, you really hit me hard  
Oh my god  
I'm standing where you left me  
You better come and get me  
I'm standing where you left me  
I'm right here where you left me, yeah

Empty heart, empty bed  
Been so long since I last slept  
Never knew what I was in for  
Still in chock, kill the clock  
Nothing lasts forever  
What the hell am I doing here

Standing where you left me  
I'm standing where you left me  
Man, you really hit me hard  
Oh my God  
I'm standing where you left me  
You better come and get me  
I'm standing where you left me  
I'm right here where you left me, yeah

Oh my God  
This is too intense  
It makes no sense  
This isn't me  
All this weakness  
Make me so sick

Standing where you left me  
I'm standing where you left me  
Man, you really hit me hard  
Oh my god  
I'm standing where you left me  
You better come and get me  
I'm standing where you left me  
I'm right here where you left me  
I'm standing where you left me, yeah
