Who's loving you now

Heard things about you
They said you had changed your ways
I can't stand to talk about the past
It's all over now
Living with this lonely heart
Surviving each moment without you
Never thought of being this way before
Hmmmmm now i want to know

Chorus:

Who's loving you now?
Who's holding your heart and mind?
Who's loving you now?
I wanna know who's loving you

It's been years without you

Then why do i dream of you
Afraid that this heart still beats for you
Hoooo...now i want to know

Repeat chorus

Bridge:

Things have changed
And time has erased
The feelings that you once had wooooo
But i can't deny
Nothing seems to defy the moments of love
We have shared in time...

Repeat chorus

Who's loving you now?
Who's holding your heart and mind?
Who's loving you now?
