He died on a Friday by Saturday night
She was out in a club drinking all through the night
And she was to happy too soon
In the casino he didn't think twice 'bout
Gamlin' it all on the roll of a dice
And he was to happy too soon

Well, you just never know how it's gonna go
Well, you just never know how it's gonna go

It was teenage fun with the parents away
Now the Baby is due in the middle of May
And they were to happy too soon
Promoted at work bought a boat and got drunk
Till the very next day the whole company sunk
And you were to happy too soon

Well, you just never know how it's gonna go
Well, you just never know how it's gonna go
Well, you just never know how it's gonna go

Up on the table and under the knife
I wonder is this gonna be my life
Should I've been to happy too soon

Well, you just never know when you're gonna go
Well, you just never know when you're gonna go
Well, you just never know when you're gonna go

Sooner or later we'll figure it out
Figure it out for ourselves
