"Come Inside"

Come inside, in my room, I swear weâ€™ll take it easy, I
will come to your
Side, and weâ€™ll love so sweetly

I will make you feel the way, girl, you want to feel (I
want to feel)
And I will take the pain away, all you got to do is

Come inside, in my room, I swear weâ€™ll take it easy, I
will come
To your side, and weâ€™ll love so sweetly

Say you want to hold me near, that you want me here (I
need you here)
And I will press against your skin, you know Iâ€™d love to
this

Come inside, in my room, I swear weâ€™ll take it easy, I
will come
To your side, and weâ€™ll love so sweetly

[Bridge:]

I will make you feel alright (alright), I will make your
sunshine bright
Ooh, I will let you see, I will make you feel, ooh, oh my
love, my love is
For real, so real
