How can I make it through the day
Without you
You have been so much a part of me (and if you'll go)
I'll never know what to do

How can I carry on my way
The memories
When all that is left is the pain in my history
Why should I live my life today

[Refrain]
I cannot live out on my own (I can't do anything at all)
And just forget the love you've always shown
And accept the fate of my condition
Please don't ever go
For I cannot live my life alone

[Chorus]
Say you'll never go
Say you'll never go out my way
Say you'll never go
For we can still go on
And make it through
Just say you'll never go
Say you'll never go away

How can I make my dreams come true
Without you
You were the one who gave love to me (and don't you
know)
Your are my fantasy

(Repeat Refrain)
(Repeat Chorus)

(Repeat Chorus)
