If only a song could capture a memory
I would be with you
If only a heart could fall for a melody
I know you'd love me too

But a song is just a song
And a melody won't do
If you don't belong to me
In the way I'd want you to

But just as long as you know
This is song is for you
For as long as the memory of this melody lives on
I'd always remember
The way you are to me
And that's how you'd always be
Here in the memory of a song

If only a dream could be realized
I'd have you here with me
Here in my arms
Here in my life
The way it's meant to be

But I've had enough of dreaming
Of a life I'd never have
If you don't belong to me
I guess I'd have to live with that

But just as long as you know
This is song is for you
For as long as the memory of this melody lives on
I'd always remember
The way you are to me
And that's how you'd always be
Here in the memory of a song

For as long as you know
This song is for you
