All of my heroes
Are lettin me down
I know every song by heart
I've been to every show in town

Well I got your new record
Looked for it all of over all town
Being on the bus must've changed you much
Don't know where you're coming from
I believe but you believe

All of my heroes are letting me down
I know every song by heart
I've been to every show in town
All of my heroes yes it's going down

Hey hey hotshot you bought her a ring
congratulations way to go
I heard your brand new song last night
And pumped up on my radio
Seems like things are going great
I caught your mug on MTV
But why you songs so sad
You don't seem so sad to me

Chorus

Hey you really ripped it up last night
Showed us what it was all about
We waited for you backstage
See if you'd be coming out
That's ok, I understand
You must be a busy busy busy man
Ain't got time for folks like me, I'm sorry
