Well you tell me I'm way out of touch  
So I tell you that it don't me much to me  
And nothing comes for free  
So it goes all day  
And into the night  
Don't you know we're just bound to fuss and fight you  
see  
You don't listen to me

I've got ears  
I've got eyes  
I've got all my senses to keep me wise  
Hold your tears tell no lies  
I'll be long gone by the time you said goodbye

You know me  
I get way out of line  
I tell you this is just wastin my time  
But don't go  
Cause we've got nothing to show  
So it goes all day almost every night  
The shadows grow darker and in the light of the clear  
day  
I wish you'd hear me say
