Here comes that boat floating down the river  
The south bound channel on the west side  
It looks like the captain's pulling over  
And I'm bound to take a ride  
Take a ride

Well down at the dock I paid my fare  
I paid only one way not two  
I don't know where but I'll get there  
And on my way I'll sing this tune  
And when the night falls down on the southern city  
And there's nothing left to do but play

Well opportunity is beckoning to me  
And I'll make my way back home some day

Don't you know my daddy was a real hard worker  
For us he did all he could do  
Worked all day for the white collar man  
So he could send us off to school  
But I feel just like cryin  
Because I didn't play by all his rules  
Well opportunity is beckoning to me  
And I'll make my way back home some day

Here comes that boat floating down the river  
The south bound channel on the west side  
It looks like the captain's pulling over  
And I'm bound to take a ride  
Take a ride

And when the night falls down on the southern city  
And there's nothing left to do but play

Well opportunity is beckoning to me  
And I'll make my way back home some day
