To me she was a little angel
Sent down to me from God above
'Cause on the day that I first met her
And I told her of our love

It's mighty dark for me to travel
For my sweetheart she is gone
The road is rough and filled with gravel
I must journey all alone

On the night we strolled together
Talking of our love so fair
She said she'd always loved me
And she'd always there

It's mighty dark for me to travel
For my sweetheart she is gone
The road is rough and filled with gravel
I must journey all alone

It's mighty dark for me to travel
For my sweetheart she is gone
The road is rough and filled with gravel
I must journey all alone
