You and I were lovers all along
We had a good thing going strong and never doubted
Lately I feel changes coming on I know
That I will soon be gone and you don't even want to talk
about it

Ooh and it makes me stop and wonder why
People give their hearts and turn around and say
goodbye
If there's something on your mind you better say it
while there's time
Cause I'm leaving when I see that morning sky

Ooh how did we ever come to this?
There's nothing for me in your kisses anymore
Late nights in the kitchen I pretend that I still care
But we both know there's nothing there and you just
keep on staring at the door

Ooh and it makes me stop and wonder why
People give their hearts and turn around and say
goodbye
If there's something on your mind you better say it
while there's time
Cause I'm leaving when I see that morning sky
