I've got a song that ain't got no melody
I'm gonna sing it to my friends
I've got a song that ain't got no melody
I'm gonna sing it to my friends

Will it go round in circles
Will it fly high like a bird up in the sky
Will it go round in circles
Will it fly high like a bird up in the sky

I got a dance it ain't got no steps
Gonna let the music move me around
I got a dance it ain't got no steps
Gonna let the music move me around

Will it go round in circles
Will it fly high like a bird up in the sky
Will it go round in circles
Will it fly high like a bird up in the sky

I got a story that ain't got no moral
Gonna let the bad guy win every once in a while
I got a story that ain't got no moral
Gonna let the bad guy win every once in a while

Will it go round in circles
Will it fly high like a bird up in the sky
Will it go round in circles
Will it fly high like a bird up in the sky
