

The Blue Dogs **"You're Not Alone"**

Visit "[You're Not Alone](#)" on MotoLyrics.com

When this world's unkind
Please keep this in mind
I'll always be standing close behind
With a hand to hold
To keep you from the cold
I'll be with you until we grow old

You're not alone
By yourself in this world
You've got someone else to take you home
When there's no one left in this world
You're not alone

When this day is done
And you need someone
I'll be here when the morning comes
Why going down life's road
I will share the load
I'll help rest weary soul

You're not alone
By yourself in this world
You've got someone else to take you home
When there's no one left in this world
You're not alone
