Kill the sun, kill the moon instead  
Someone's gone to your little head  
Don't look so sad!  
Chevaux il fait!

Fatal place in your final hour  
Little peace for the here and now  
Don't look so sad!  
Chevaux il fait!

You say you're so unmade  
You're untitled too  
You make the stars behave  
When they're close to you

Don't forget, when you're fast asleep  
There's a plan you need to keep  
Roll on! Roll on!  
Chevaux il fait!  
Chimere dore!
