Real title: "It's Written In Black"

"I don't know what you did to me,
I guess my soul do got lucky"

Fly, fly, it's what you did with me
And then taught me how to do it alone.
I won't regret the time that I met you
'cause it's the start of my world.

I can picture us happy.
I won't forget you don't worry...oh oh

CHORUS:

The sun is burning but still she cares.
Who you are is all she knows.
Deep inside this paper if you could see
What this angel means to me.
Well I, discovered that you have
Healing powers. My heart turned brand new.
I feel bad when your forehead's
Not relaxed, mine have confusions, too.

Wanna stay with you forever
Even if you live in freezers...oh oh

CHORUS:

The sun is burning but still she cares.
Who you are is all she knows.
Deep inside this paper if you could see
What this angel means to me. (2x)

"I don't know what you did to me
I guess my soul do got lucky"
