Give me a little old fashioned love the kind that lingers
through the years

The kind that's made by God up above give me a little
old fashioned love

Now you can have the girls with rosy cheeks the ones
that coo like turtle dove

I just want a simple girl that's sweet so give me a little
old fashioned love

[guitar]

Now you can have the girls that's dressed so nice

From their head down to their little feet

But if you want some real good advice the old
fashioned girls just can't be beat

So give me a little old fashioned love...

[steel]

Now you can have the girls with wordly ways that's had
a dozen so called love affair

But they'll never make me their slave I want a simple
girl that's on the square

So give me a little old fashioned love...
