I'm lookin' high and low for my baby
I've searched every honky tonk in town
Everybody tells me that I'm crazy
To let some pretty lady get me down
I'm lookin' high and low for my baby
I've gotta find that gal again somehow
I'm lookin' high and low for my baby
She's the only thing that matters to me now

(Instrumental Break)

I'm lookin' high and low for my baby
It seems I've walked a thousand miles or more
My shoes are thin my heels are all run over
No woman made me feel like this before
I'm lookin' high and low for my baby
For I know that gal is still right here in town
Before I quit lookin' for that woman
I'll turn this whole durn city upside down

(Instrumental Break)

I'm lookin' high and low for my baby
I've gotta find that gal again somehow
I'm lookin' high and low for my baby
She's the only thing that matters to me now
