Now some folks think I'm lazy some say he's just tired
Some say I'm waitin' on a Gravy Train for some rich
fellow's yard
But they don't know what it's all about no matter how it
may appear
I don't pass through this world but once so I'm taking it
easy here
Taking it easy here my friend taking it easy here
I don't pass through this world but once so I'm taking it
easy here
Taking it easy here my friend taking it easy here
I don't pass through this world but once so I'm taking it
easy here
[steel]
Now some folks like the Northern steaks some folks
like the South
Some run around like the Gypsies do just livin' from
hand to mouth
But I don't want a lotta dough just enough to feel
secure
I don't pass through this world but once so I'm taking it
easy here
Taking it easy here my friend...

[guitar]
Now some folks like the Eastern steaks some folks like
the West
But to me it's all the same just so I get my rest
My life's gettin' shorter every day but the future holds
no fear
I don't pass through this world but once so I'm taking it
easy here
Taking it easy here my friend...
