There's gonna be some changin' 'round
Baby, you've done left me down
You've done trifled on me
Your last time you know

It just ain't right
When I come home you start a fight
Don't leave you
At least this trouble mind o'mine

Now baby
I want you to know
You left your motor runnin' slow
I got off got on a faster line

Got me a baby that's got some sense
Cuttin' in at joy expense
Don't leave you
At least this trouble mind o'mine
There's no use to talk to you
'Cause I know we're really through
I can find a better way
To spend my time

So if I should stay out late you know
Been swingin' on other gate
Don't leave you
At least this trouble mind o'mine

Now baby
I want you to know
You left your motor runnin' slow
I got off got on a faster line

Got me a baby that's got some sense
Cuttin' in at joy expense
Don't leave you
At least this trouble mind o'mine
