Today I'm like a leaf in autumn never again to know the  
spring  
Today my heart is at rock bottom sorrow nothing else  
could bring  
But those words you told me just today you said I'm  
only in your way  
You left me and what could I say for my world ended  
today  
[ steel - guitar ]  
I turned and gazed into the darkness but no tomorrow  
could I see  
And I remember your remarkets I recall our used to be  
I have a treasure yesterday something you can't take  
away

I'm lost I'll never find my way for my world ended today
