There was a time when you were mine and my heart
knew no pain
But since that time sweetheart I find there's been an
awful change
The love I knew has proved untrue and now we're far
apart
No matter how you treat me now you'll still be in my
heart
I understand your many plans I brought you wealth and
pride
With all your gold when love is cold you'll be dis-
satisfied
You were untrue because you knew I love you from the
start
Though you'll find bliss in another's kiss you'll still be in
my heart
[guitar]
I can't erase the lovely face no matter how I try
When friends we knew just mention you I hang my
head and cry
You turned me down because you found you play the
leadin' part

Those lonely years I'll spend in tears you'll still be in my
heart
My one request when I lay to rest the future has in store
On that sad day beneath the clay to sleep forever more
Should you be there in deep despair when burning
teardrops start
Please don't forget I love you yet you'll still be in my
heart
