i just wanna let you know,that i really love you so,you
came in and took control of my very heart and
soul,your'e my sunshine after the rain, your love's
sweeter than sugarcane,your love takes me way up
high,all the way to heavens skies,baby your'e my
shining star, my lover,i could never ever love
another,baby your'e my shining star my lover,when i
look into your eyes ,i can see paradise,oh baby,i love
you girl,oh honey give you all my money,when ever i'm
next to you, all my cloudy skies turn blue,your'e my
ocean your'e my shore, your'e everything that i live
for,your'e my sunshine after the rain,your'e love's
sweeter than sugarcane, ,your love takes me way up
high ,all the way to heavens skies,baby your'e my
shining star my lover,i could never ever love
another,baby your'e my shining star my lover,when i
look into your eyes,i can see paradise
