Hey,  
Where in the world did you come from?  
Steal my soul and you're making me feel so high,  
So delighted when you're near me,  
Do you feel me?  
Girl you make me come alive.

Better than sun,  
Better than rain,  
Better than anything that I can ever explain,  
Better than money,  
More than any drug,  
Nothing feels better than when you give me your love.

Are you a dream or an angel?  
You're always sue me when you look to my eyes,  
Sweet surrender come and take me,  
Girl you make me feel like a man without a mind

Better than sun,  
Better than rain,  
Better than anything that I can ever explain,  
Better than money,  
Oh than me drug,  
Nothing feels better than when you give me your love.

There's no power that can make me love you,  
More than love you, no power,  
You set me free, alone in this coward,  
Everything flowers when you give your love to me.  
You give all.  
Better than sun.

Better than sun,  
Better than rain,  
Better than anything that I can ever explain,  
Oh, anything that I can ever explain.
