You shine the light Melissa
The gray took it on yourself
sang a lot of love songs and wrote some
You knew it all yourself

You lead the way Melissa
it goes by the chariot
everybody cheers and cries some
you keep on standing up

Now that the one you love is gone
you are the girl to carry on
now that you've taken off your cross
love is not lost
love is not lost

You've seen it all Melissa
you're gonna wear Elijah's clothes
you give yourself completely
you walk salvation's row

Now that the one you love is gone
you are the girl to carry on
now that you've taken off your cross
love is not lost
baby love is not lost
Love is not lost

Now that the one you love is gone
you are the girl to carry on
Now that you've taken off your cross
Love is not lost
Love is not lost
If you believe in love in love
If you believe in love in love
If you believe in love in love
Love is not lost
