Starting Over

Played

I know what they sayin bout you on the street
Your an easy one to fall for a hard one to keep
Said you break a hundred hearts before your done
And goin stop me from tryin to be your hundred and
one

I know I know You're gonna rock me and let me go
I want to get played, I want to get played by you
Half of what they say is true
I want to get played by you

I wont be the kinda guy to bring you down
If i'm beggin i aint choosing i just want you around
Lovin and leaving thats your claim to fame
Get on with it baby make me a link in your chain
Ive got it bad
you are the sweetest heart breaker i never had

I want to get played, I want to get played by you
Half of what they say is true
I want to get played by you

I know it might sound weak like im a fool or a freak
but dont you know ive got a hidden agenda
Once you let me in youre gonna want my love again
your gonna want me around forever whatever

I want to get played, I want to get played by you
Half of what they say is true
I want to get played by you
