Don't leave me waiting
For the love I need
Oh lord, it's wearin' on me
I don't want to find out
That faith can't be found
When the lights go down

So many memories behind
Can't you see we're losing time
I don't want to find out
That love lost its crown
When the lights go down

Once we were something
Then we took to the sky, ooooooh
I don't want to find out
That love can't be found
When the lights go down

Don't try to be fair
Don't try to be kind
We both know you made up your mind
I don't want to try to turn you around
When the lights go down

Once we were something
Then we took to the sky, ooooooh
I don't want to find out
That love lost its crown
When the lights go down

Don't leave me here
When the lights go down
Don't leave me here
When the lights go down
Don't leave me don't leave me here
When the lights go down
