You're doing this again
Is it hard to let me know
Unsafe in my company
It does not show
I sure ignored your sadness easily
Sorry for beeing insecure
I have done it again and again
Sorry for being at all

Ignorance is pulling me down
And you're just a name on the list
What have I done, what have I done
You're just a name on the list

This may be memories
I don't wanna hurt you again
Cause time won't heal the wounds
Want to wash out the rain from your eyes
You won't hear me
You fear me
You don't know how

Ignorance is pulling me down
And you're just a name on the list
What have I done, what have I done
You're just a name on the list

Will we ever be again
Will we ever be whole

I won't give
