[Intro][Prodigy]

Yea

It's that war shit

It's that war shit

And you know what dun

[Prodigy]

It makes you sick to hear the mobb bang like this

Infamous for the world to hate or play this

Don't give a fuck if you can't rock to this

My duns' heads bop to this

We stand out like a tourist

And make more noise than them other rap niggas

No gimmicks

Just pure adrenaline

Raw lyrics incredible beats

Don't mean to rub it in

But your small time beneath our feet

Straight ass cheeks niggas be askin

For ass whippings

Guns kick like pelle

My big shit be jumping like Jordan

Often lay a man down on the floor when it gets like that

I'm not blowing off rounds so you can hear sounds

So you can run back actin like you a vet

And swearin' you dead

You survived some real shit

Now what's this it's not going down like this

Ground y'all niggas like punishment

Dumpin' out full clips when we dumb out

Though I'd rather do music and chill the fuck out

Dun you bugged out I'm trying to walk a peaceful route

But niggas always got mouth until that piece come out

Niggas always gonna think something sweet

Until they least expect you bringing action exactly

[Chorus]

It be the Guns, money, pussy, cars, drugs, jewels, clothes

Brawls, killings, boroughs, buildings, disease, stress, in
these, N.Y.C

2X

[Havoc]

Feel the gat blow while your shit rips
My shit'll hit while you lettin' niggas go
So you can lower the wrist
That'll only put odds against any attempt
Any provoke uprise you ain't got it in you
First of all you too soft for fastball
Point game track y'all merk like a jaguar nascar
And be out buck 80 on the slow mar
Hennessy spillin' all over my radar
Stay charged niggas getting amped off the mobb shit
Have you wildin' out on some club shit
Fit to make you dance at the same time
Stop and glance
Slap flames out the nigga with the wrong idea
Young shit with young mind but that quite contraire
Young nigga smart nigga
Who started from the stairs
How dare
You try to come around the way
In fear like a nigga that been there for years
Shout words that we live but don't play with it
'Cause when the shit go down you be like they did it

[Chorus]

[Prodigy]

Taste test this Military shit
Bitches love this
They mans wanna dub this
Thugness it ain't easy to find
Shit like mine I'm a rare species
You's a dime a gross
That's a dozen heast the least
Keep silence the most
Regulate with the rest of my establishment
Blast out the pockets of coke
Make the cops boat
I break down your whole background yo
Ironsâ€¦a permanent flesh your clothes soakin'
You feel the shots pain every heartbeat throbbin'
Don't get excited you'll only make it worse fighting
Spent most of my nights graveyard shifting
Make burial grounds be that man grim reaper
With all pleasure
Pick your feet up
Pick the heat up
Let's do it like the crematory
Make it hot make the temperature rise like mercury

[Havoc]

When I feel like getting' bent [Yo don't fuck with it dun]
Imma drink away the pain until the brain get numb
Can't take all my dogs getting lost in the fog
Never to return I guess they heard god's call
And nature don't surprise me now
Prepare for the worst and never believe the silver line
clouds
Scrutinize crowds
My surroundings
Get suspect we start four-poundin' shit
Picture me up in the mix
With the next man broke and is on my dick
A good man of plenty but an enemy it was clear
I just be another problem that he feenin' to fix
But I can't have that
Pull out I try to grab that
Caught one nigga like Mahadat

[Chorus]

[Prodigy singing]

Tonight we gon' get this party early
So let's get it right
