Uh-huh (Yeah) Yo  
It's this little shorty, knowhal'mean  
It's real (It's like it's rough)  
What I'm supposed to do ya'know (It's real rough baby)  
Yo, (Hold ya head, hold ya head dunn) Yeah

[Havoc]

It's bad enough I gotta grow up the fast way  
These things going on got me thinkin they the last days  
Tryin to come up, but shorty with a plan  
Doin my best but can't see the promise in my land  
These older cats wildin out over turf dog  
I'm caught in the middle and it can't get worse  
Just the other day I saw my homie wheeled off in a  
hearse  
So used to it, it don't even hurt  
My heart's numb, guess that's the Dunn Dunn  
Can't speak on it, 'less you been where I come from  
Stuck like bubble gum with no help from anyone  
Moms got four others -- my four younger brothers  
We're not supposed to do the tender age of ten  
Dog, we're in the same boat I can't turn to my friends  
Fore I lay me down to sleep pray to God that I'll see the  
next day  
and do my best, hope these streets don't get me

CHORUS: Havoc (Prodigy) 2x

(It's real) Keep that park open  
Baby I just wanna play  
(Uh-huh) Keep that park open  
Baby I just wanna play  
(No doubt) Keep that park open  
Baby I just wanna play  
(That's right) Keep that park open  
Baby I just wanna play

[Prodigy]

Yo' baby, I'm strugglin for crumbs, survivin the  
unheard of  
Growin up amongst the violence and drugs

Growin up against the world and such (Uh-huh)  
We the young black future of the world and plus  
We the team that'll crush anybody you bring  
We the one that's gon' hold it down, it's no thing no  
sweat  
It barely take no strength, you cowards ain't built for  
this  
(And it's real) All we wanna do is hit the park  
Play all day and night without a care in the world  
But it's drama in my hood, sho' it's hard to chill  
You gotta stay on point and sharp as hell  
Dunn, we just wanna have fun  
I just wanna be with my dawgs, cuz we all we got  
Don't why it is, but that's how it is  
I just wanna be with my clique cuz that's where I fit

#### CHORUS

[Havoc]

(It's real) Where do I turn to, who do I console in?  
I know I'm just a shorty but I want my wrist frozen nice  
As I sat and thought many a nights  
I could do the right thing or get read my rights  
It's life, in the hood  
Everything that look, it ain't  
I stole base, now I'm runnin from home plate  
Runnin from jake, sweat runnin down my face  
And I can pay for every move I make

[Prodigy]

Just enjoy your youth, you only live once  
Lil' dunn control yourself, learn discipline  
And show some respect for others  
Shit is serious on the street, you playin with fire  
Concentrate on yourself and don't follow nobody  
Hit them school books, so you ain't gotta borrow no  
money  
These is jewels for you that you gon' wear forever  
From us to y'all, now listen up to pa

#### CHORUS 2x

[Woman singer]

Mothers child  
Has to go and travel into the wild  
Lord she had a heavenly sky  
Sweet saint he Lord  
Thank you God  
[Repeat]
