[Havoc]

1-2, 1-2

[Prodigy]

Yo, however do u want, however do you need P
My Mobb bring it back to life, back to reality
You walk a fine line playin wit mine, the greatest story
ever told in rhyme
We climax in ninety-five, wit demo raw raps is knives
To skin all ya'll cats alive
Take your time don't rush the clock, Infamous rock for
good now
Pass like my duns on lock holdin the pot down slow
But assuring this, spoon-feeding these
Starvin ass heads catchin shakes, feenishly
I ball in this, word assortin this, probably recording this
Of course kids keepin they sights upon this
Exclusiveness, like some new type of kicks
We got them things fixed, passed the wrong man in my
click
You get charged wit incense to kick that bullshhh
Welcome to the ledge of this whole shhh

Chorus [Havoc]

Yo, we the men for the operation
You know the M-O, B-B's, warrior style, rare species
Catch us on your block , on your wide-screen tv's
From Jones Beach to over-seas from over there
It's right back to the beats, longevity to all the great
grand CC's

[Havoc]

Yo, for my QBC duns, it's all real hold it down
You bust yours, we bust ours and stand on firm ground
Pass the dutchie while I, handle the Henny thinkin
You never catch me sleepin, stay on top of this properly
I know they watchin me, if not they probably waitin for a

downfall

Scheming on my property, we got the remedy
Let em get a little cold, let em smell the tree smoke
Hit em where we blow and don't let nobody know
The snakes in the grass, you gotta watch where you
move
Son, shots get loaded, don't ever run wit the crowd son
Stick and move, you hear me?
And that's the way we rock it, the only way to live
If you really think about it
Every move is humble wit precision, careful thought
decisions
And my whole cli-tique the same vision
41st till I dearly depart, till then I'll be somewhere
gettin bent up in a den
Sippin gin, while you shook cats just pretend to be
something
That your not and that's not good my friend
On a personal, I ain't even feelin you cats
Don't even acknowledge the fact that you weak raps
We bust gats at, on the reg laughed at
Son you know we passed that, get em outta here, cuz
you could have that

[Prodigy]

Four pounds, stumbled off grounds
Fire off many a rounds, I heard return fire 3% of the
time
Your dogs was wives actin like girls, get feminine when
handlin guns
You could run or take the window, son
Or feel this hot one, we rip all strifes dun dun
Without a fight son, we keep the house dope like ?pie
fendis?
We twist and pop Henny, gettin wet on the daily, and
Peers get chilly, turnin macks fully
Now they bandin, court rehanded and got remanded,
faught
A one to three degree from V-O-P and N-C-C-V
And send me up a hub to a state facilities
What could I do but sneak, burn a tree, or tobacco leaf
Or wait until my time served and get released
Cool, back on the streets I seen some old drama
I still hold heat to send your ass straight to trauma
These kids started to drilling like they ready and willing
I gave em exactly no time to switch feelings
Pulled out, to my man, look out
Commits to warfare, and rock these to sleep like this
here
Seventy-two like as if I was back on the top

Hours of thinkin about how I'ma tip they ass up out the
basket
Beligerant glass heads, I'm bashing
No knowledge of the man nor his action
Class now is session, "Soldiers boys, today's aim is:
Never show your heat
And don't flame it"
You playin life, wit a man who lives by the sword
And dies naturally against all common laws
What, speed on and Peed on

Chorus
