

Escape The Fate "Beautiful"

Visit "[Beautiful](#)" on MotoLyrics.com

I could've found a better way
You know I never should have stayed
I could've done the things I believed were wrong
Now you're saying that it's late
It doesn't matter what I say
You know you're just another one of my mistakes

You are so beautiful, You are the kind of girl
That has the chemicals that makes me fall in love
Beautiful, you are the kinda girl, that has the chemicals
That makes me fall in love

So now I'm feeling like a slave
I'm locked away inside this grave
And I'm hoping for a way I can be saved
You know that there will come a day
When I'm just gonna' have children, you know that
you're just another one of my mistakes

You are so beautiful, You are the kind of girl
That has the chemicals that makes me fall in love
Beautiful, you are the kinda girl, that has the chemicals
That makes me fall in love
Fall in love

You know I found a small paper you lied about
You lied about
You know I found a small paper you lied about,
You lied about
You lied to me, lied to me

You are so beautiful, You are the kind of girl
That has the chemicals that makes me fall in love
Difficult, so very difficult
You are the kinda girl, that makes me fall in love, fall in
love
