Now rockin' with the best
So I advise all you brothas to get on down
I said get on down, get yo ass on down

I don't give a god damn about radio play
'Cuz I do what I wanna do anyway
I can slit my wrists if I wanna
By the time I get to Arizona

I'm not from L.A. or New York
I chill in Detroit on the sidewalk
City slicka, drink a little liquor
Wanna see a trick? Suck my dick

B-boy, down for my town
Some just love the way it sound
Call me the B-D
The unholy Esham's crankin' out your CD

Man, that's sweet
Beats get broke but I still rock break beats
Call me some kinda fool
When I was ten, I got kicked outta Sunday school

The reverend don't like me
He said 3 times, 3 times, 3 times 2 is me
666 man, they callin' me a sick man
But I just kick jams, make ya say amen
I gotta G E T D O W N

Get on down, mothafuckas
To the cool, rockin', mellow sounds of the unholy
So I want everybody to just get on down

Pump that shit up
You could die and I really wouldn't give a fuck
I honestly can say
I don't give a fuck 'bout nothin' but get paid

Take it how you wanna take it
Money, make it how you wanna make it
I ain't frontin' on the facts, man

It's just like that
Flip them burgers or flip them cracks

'Cuz it really doesn't matter to me
My pockets gettin' fatter, you see
Fuck this and fuck that
I lay my beats down on an ill track

Make you wanna bite it like a cookie
Suckas on the mic, just rookies
Kick that acid, drop it on your tongue
Or just pass it but get on down

Get on down, brotha, get down
Get on down, brotha

Hold up, wait a god damn minute
After I fuck this beat, I'm a nut in it
I'm droppin' no babies, jack
No if, and's, or but's or maybe's, Jack

I fuck beats all day
Nut in the speaker, so it bumps the right way
Call me unholy, holy I'm not
Cross me and get shot

Motherfuck a preacher, fuck college
Without dollars, they don't teach ya shit
But how to be broke
And when ya get broke, it's all just a big joke

Their all gonna laugh at ya
And tell ya black ass to go back to Africa
You're nothin' but a fuckin' clown
What your funky ass needs to do is just get on down

Get down, get down, get on down
