the last time we talked i didnt know if we would be together but when we first fell in love you said we would be together forever.you used to kiss me in places that ive never been kissed before.But now when i talk to you,you dont even say i love you anymore.Every night i want you inside of me,but now i know it would never be...your in love with me and im in love with you,come lil closer baby this is what you do.You lay me on my back.i like it like that.i can be your Mac momma and Â you can be my daddy mac.you know Â you turn me on in every single way. Later on in the day I want your four play. No body has to know we can keep it on the down low. We can do it fAst or we can do it slow. I've been wanting to make love to you for awhile. But welcome to my heartbeat every time you smile. Everything I'm speaking to you I'm anticipating. And if you feel like me I know your tired of waiting. Gimme ya love cause it's you I'm thinking ofÂ Gimme ya love in the middle of the night Gimme ya love make me feel alright Cause I'm all in love with you . Please tell me is our love true.i wanna kiss and hold your body tight. If you come inside my house, you got to stay the whole night. Come and stay with me and you will see. We were meantime to be. Ecstasy.. A bubble bath, a little candle light and everything is nice. I got the booze on ice.? I feel like I'm in love for the very first time. Tonight I wanna show you everything that's on my mind. I wanna take your mind and body to a place, where the sweetness of my kiss is all that you can taste. Tonight I want your body mind and soul. Hold me in your arms And make me feel like you were always in love with me, like I was in love with you. I want this night to last forever. Taking you to heaven in my dreams. But in reality it seems you will never be mine. And your running out of time..
