"Mother Earth is pregnant for the third time  
for y'all have knocked her up  
I have tasted the maggots in the mind of the universe  
I was not offended, for I knew I had to rise above it all  
or drown in my own shit."

"Mother Earth is Pregnant" X 7

"...for the third time"

[Esham]

Why did you want to live the life in this world we live in?  
Love ain't worth a dime, so then you nothin' to give him  
The baby has no father, he ran out on the mama  
So raise him as cannibal to be like Jeffrey Dahmer  
You life is really worthless, you live and then you die  
You go to die, and bodies rot and then your wonder  
why

And then you live in doubt, can you live or live without  
The fact you know you can't afford to feed another  
mouth

Your head is steady spinin', the Devil's steady grinin'  
While you was steady sinning from the very first  
beginning

Is it a boy or a girl, I think I should referral  
You should terminate it, because it's a lousy world  
You life on the line, you're out ya fuckin' mind  
You gotta do it too, 'cause you're running outta time  
It's just another embryo, attached to an umbilical  
You can let that baby grow, but I'd kill it though,  
kill the fetus

[many samples ""]

"It's a lousy world"

"He's fighting for his life"

"Mother Earth is pregnant for the third..."

"cool my hot ass down"

Kill the Fetus

"It's a lousy word"

[Esham]

The baby's premature, the mother is a whore  
Contemplatin' suicide so what you waiting for  
I think I heard a kickin', but that's a normal state

Gem a hanger in ya asshole until your water brake  
You better use some caution, Givin' yourself an  
abortion  
Death's the only way to solve a suicide solution  
So here's my contribution, my suicide solution  
You play the game of death, but then you can't win for  
losin'  
You wonder if you want this, or should you kill the  
fetus?  
Life is just a waste, so then you outta just delete this

Problem to society, society's a problem  
My suicide solution is a 38 revolver  
I'm your problem solver, your life is full of horror  
Some are born to die and yet some will die tomorrow  
Vagina tissue's torn, your pussy's kinda worn  
I think I outta warn, if you're having an aborn.(abortion)

Your inner one perspective, there is one contraceptive  
Your M.P.D.(Multiple Personality Disorder) is positive,  
so you can let that baby live  
It's just another embryo, attached to an umbilical  
You can let that baby grow, but I'd kill it though,  
kill the fetus

[Esham]

The planet's really fucked, so now ya kinda stuck  
You should of thought about it, before you bust a nut  
It is a lousy world, I live a lousy life  
I think I outta stab you in the stomach wit the knife  
Or push you down a flight of steps, until you fall and  
break ya neck  
Did a little damage, can you manage your  
miscarriage?  
Life is not a choice, death is the alternative  
Or should you let it grow up in this fucked up world that  
we live in  
These are the consequences, add one more to the  
State Census  
Born to die in poverty, so tell me what's existence?  
It's just another embryo, attached to an umbilical  
You can let that baby grow, but I'd kill it though,  
kill the fetus
