This is the real deal...just open your mind...  
you can find we've always been here  
most of the time.  
But since the real deal, just nobody to find  
most of the time...

You just open your mind...you just open your mind...You  
just  
open your mind...  
You can find, we found...we found...we found...we  
found...we  
found...

This is the real deal...just open your mind...  
you can find we've always been here  
most of the time,

but you'll see that we can make it if you dance with me,  
and in life you can't take it but you can be free...

This is the real deal...yeah, the real deal...this is the  
real  
deal

Step right up, hurry hurry, get your tickets now,  
before your vision gets hurt don't ask me how...

Cause anybody shaking just make you smile,  
and i got a hundred reasons that will drive you wild...

Step right up, hurry hurry, get your tickets now,  
before your vision gets hurt don't ask me how...

Cause anybody shaking just make you smile,  
and i got a hundred reasons that will drive you wild...

drive you wild...drive you wild...drive you wild..."
