### "What's Come Over Me"

Visit "[What's Come Over Me](#)" on [MotoLyrics.com](http://MotoLyrics.com)

What's wrong with my mind  
What's come over me  
I thought I saw your face  
Wearing a smile, dimple on the side

What's come over me  
(What's come over me)  
What's come over me  
(What's come over me)

What's wrong with my ears  
They're deceiving me  
I thought I heard you speak  
Calling my name, I must be insane, I just can't explain

What's come over me  
(What's come over me)  
What's come over me  
(What's come over me)

Don't tell me I've stumbled upon you  
Or is my mind in a daze  
For this can't be as real as I want it  
For you let me go, then went way

Some kind of feelin'  
(What's come over me)

Just look at me now, seems like I'm floating on a cloud  
Oh, what could this be

What's come over me  
(What's come over me, over me, come over me)  
What's come over me  
(Over me)

Over and over, baby  
(What's come over me)  
What's come over me  
What's come over me  
(Over me, come over me, over me)

(Ah...ah...)

You see, I must have gone through some changes  
when I kissed your picture  
And hey, my mind just keeps on wondering when you  
only left me yesterday  
I've never been to heaven, instead I spent the night  
with you  
Maybe that's the reason I don't know what to do  
What's come over me

What's come over me  
(Over me, come over me, over me)  
What's come over me

Over and over, baby  
(What's come over me, over me, over me)  
And I can't break free  
What's come over me  
Over and over and over and I just can't sleep  
(What's come over me, over me, come over me, over  
me)  
Tell me, tell me what's come over and over, baby  
(What's come over me, over me, over me)
