Black fingernails, red wine  
I wanna make you all mine  
A lot of people, underground  
You wanna get there, you gotta go straight down

Straight down

There's a culture, everywhere  
Smoke clouds hang in the air  
It's so loud, can't hear you talk  
You and I, should take a walk downtown

Straight down  
Downtown  
Straight down

The argument over God continues  
In this house  
All of us stand and point our fingers  
At the ground  
All of us stand and point our fingers

Straight down

Red letter day, black heart  
It's gonna tear you all apart  
So loud, can't hear you call

You and I are gonna fall straight down

Straight down  
Downtown  
Straight down

The argument over God continues  
In this house  
All of us stand and point our fingers  
At the ground  
Argument over all continues  
In this house  
All of us stand and point our fingers

Straight down  
Straight down  
Straight down

Black fingernails, red wine  
I wanna make you all mine  
A lot of people, underground  
You wanna get there, you gotta go straight down

The argument over God continues  
In this house  
All of us stand and point our fingers  
At the ground  
Argument over all continues  
In this house  
All of us stand and point our fingers

Straight down  
Straight down  
Straight down
