Turn up turn up turn up your stereo
Turn up turn up turn up your stereo
I like stuff and everything you like
Yeah it's true, I am a bit like you
Call you up on the telephone at night
You make me laugh, listen to the stereo tunes
Turn up turn up turn up your stereo
Turn up turn up turn up your stereo
I've seen better days than this before
Yeah it's true things'd be much better for you
I know a way to make us feel alright
Yeah it's fine play that favorite one more time
Turn up turn up turn up your stereo
Turn up turn up turn up your stereo
Let's go!
Turn up turn up turn up your stereo
Turn up turn up turn up your stereo
Turn up turn up turn up your stereo
Turn up turn up turn up your stereo
