"Fly On The Wall"

Visit "[Fly On The Wall](#)" on MotoLyrics.com

As a fly on the wall I believe I can see what no one else sees

As a fly on the wall I retrieve and collect information

As a fly on the wall I look down, on this sad little town

As a fly on the wall I look down, on this sad little clown

As a fly on the wall I realize, I think I know those eyes

As a fly on the wall I see, this sad little clown is me

So give me a reason not to be, the drunk I am

instinctively

So give me a reason not to fall, but now I still can't hear your call

Don't come find me tonight

Cause you won't like what you'll find

Don't come find me tonight

Cause you won't like what you'll find

As a fly on the wall I look down, on this sad little town

As a fly on the wall I look down, on this sad little clown

As a fly on the wall I realize, I think I know those eyes

As a fly on the wall I see, this sad little clown is me

But give me a reason not to be, the drunk I am

instinctively

But give me a reason not to fall, but now I still can't hear your call

Don't come find me tonight
