### "Persona Gone Missing"

Visit "[Persona Gone Missing](#)" on [MotoLyrics.com](https://MotoLyrics.com)

Here's a story of a man  
who thought he was the only one with brains  
And for a long long time he had me fooled  
and i believed that was actually the case

But the fortune changed,  
he got on this train  
Got mixed up in the game,  
and (then) he was never the same

What used to be is just no where,  
no where to be found

Here's a story of a man  
how never noticed the shift in him  
Oh, this tale is such a sad one,  
but for good things the chance to last are slim

So the fortune changed,  
he got on this train  
Got mixed up in the game,  
and (then) he was never the same

What used to be is just no where,  
no where to be found

If you ever wake up, it's too late  
You've burned too many bridges, to clean the slate  
But don't you worry this was probably your fate  
It was just a shame to see u go....

What used to be is just no where, no where to be found
