And I'm free
To speak the mind about you
And I see
What any other guy would do

Why would I put you down?
Under water no breath
No matter what I've found
Nor what you did to me

Is this real life,for you?
You see love,is out there, for you too

And I plead
Guilty on every account
There's no need

For excuses or why I got out

Why would I put you down?
Under water no breath
No matter what I've found
Nor what you did to me

Is this real life,for you?
You see love,is out there, for you too
