"She's Not Here"

it's no good for us to carry on
did what I could for us but I did wrong

it was so strange when it happened
and I did not. (2).feel a thing.

she's not here no more
I don't really care no more
demanding my tears no more
but how should I act now?

She's not here no more
blurring the clear no more
I just can't see fear no more
I've broken the pact now.

was no good for us to carry on
what I could for us I did wrong
looking good but still not carry on
