Some of us got paid, some of us got laid  
Some of us got, outta here , but it was all yesterday  
Some of us came straight, some of us came gay  
Some of us came some other way but it was all  
yesterday

Just let it go now, just let it fade  
Cause i never found happiness hunting the past  
It's a down-spiral raid  
Cause there's only now  
there's only now

Some of us let loose, some of us let others choose  
Some of us accused, but it was all yesterday  
Some of us derailed, some of us helped others to fail  
Some of us just tailed, but it was all yesterday

Just let it go now, just let it fade  
Cause i never found happiness hunting the past  
It's a down-spiral raid  
Cause there's only now  
there's only now
