It's not easy being friends, it's even harder being
lovers
The flag is waving, it's the end, I build a shelter under
my covers
Where I sit i think of you my only love

Tell me I?m wrong but I feel so free and so small at
the same time
Tell me I?m wrong but I feel so free and so small at
the same time

It's not even making sense, the ground we walk or sky
above us
So how to understand the end, I build a shelter under
my covers
Where I sit i think of you my only love

Tell me I?m wrong but I feel so free and so small at
the same time
Tell me I?m wrong but I feel so free and so small at
the same time
