It's not easy being friends, it's even harder being
lovers

The flag is waving it's the end, I build a shelter under
my covers

Where I sit I think of you my only love

Tell me I'm wrong but I feel so free and so small at the
same time

Tell me I'm wrong but I feel so free and so small at the
same time

And so small at the same time

It's not even making sense the ground we walk or sky
above us

So how to understand the end, I build a shelter under
my covers

Where I sit I think of you my only love

Tell me I'm wrong but I feel so free and so small at the
same time

Tell me I'm wrong but I feel so free and so small at the
same time

Tell me I'm wrong but I feel so free and so small at the
same time

Where I sit I think of you my only love

Tell me I'm wrong but I feel so free and so small at the
same time

Tell me I'm wrong but I feel so free and so small at the
same time

Tell me I'm wrong but I feel so free and so small at the
same time

And so small at the same time
