"These Dreams Are Real"

Visit "[These Dreams Are Real](#)" on MotoLyrics.com

I can't sleep I can't breathe take me with you,
If you were here you'd make this all worth while,
I can't sleep I can't breathe we remember in our hearts
every time you made us smile.

This dream I had I died inside, you left us all and the
tears fell hard,
I see you everywhere I want you here you brought to
light what we all now fear

It hurts so much but I cannot wake, these closed
soaked eyes see only you,
I've got to wake up and get out of this nightmare

So ask me if I'm ok,
Is everything alright is every ok,
Just let me know when everything's right,
Just let me know when everything's good,
Just let me know

I can't sleep I can't breathe when I awake you'll be
standing there
