Are the stars out tonight  
I don't know, is it cloudy or bright  
I only have eyes for you

Some say it's better to have loved then lost  
But I don't know the feeling at all  
And baby it's mostly your fault  
Ever since you put a move on my heart

And I can't see the world around me  
I only see what we created  
and I don't know whats behind me  
I only look forward to how we make it

(Chorus)  
Are the stars out tonight  
Is it cloudy or bright  
I only have eyes for you  
(only have eyes for you)

Does the moon seem far away  
If it is I cant say  
I only have eyes for you  
(only have eyes for you)

Boy I wanna be were you are  
I wanna wrap my arms around you  
It's not like I'm tryna go too far  
It's just that I wanna surround you

And I cant tell if its night or day  
Cuz everything is brightened by your smile  
Don't know if I have the right of way  
Cuz my focus races a thousand miles

Baby boy you're just too much  
I wanna give you all of my love (Ooooooh)  
I get a rush just by your touch,  
You're all that I've been thinkin' of

(Chorus)  
Are the stars out tonight

Is it cloudy or bright  
I only have eyes for you  
(only have eyes for you)

Does the moon seem far away  
If it is I cant say  
I only have eyes for you  
(only have eyes for you)

You're the only one  
Boy nobody compares to you  
Boy you're all that I want  
Not a day goes by without me thinkin' bout you  
Even if the world came crumblin' down  
No I wouldn't even notice at all  
Even if the city blacked out right now  
Baby you're still my shining star

(Chorus)  
Are the stars out tonight  
Is it cloudy or bright  
I only have eyes for you, babe  
(only have eyes for you) Oooh

Does the moon seem far away (far away)  
If it is I cant say  
I only have eyes for you  
(only have eyes for you)

Are the stars out tonight  
(are the stars out tonight)  
Is it cloudy or bright  
I only have eyes for you  
(I only have my eyes on you, babe)  
(only have eyes for you)

Does the moon seem far away  
(I got my eye on you)  
If it is I cant say  
(if it is I cant say)  
I only have eyes for you  
(Oh, I only, I only have eyes for you)  
Hey, Heyyyy, yeah  
Boy I only got my eyes on you  
Da-da dup dup doo da-dup
