### **"Follow My Lead"**

(feat. Justin Timberlake)

One, two, three uh hands up I'll show what it do I got my  
stance up  
Everybody knows this is the anthem  
Everybody knows this is the anthem  
So get your hands up go...

You don't feel love from nobody  
And brand new problems keep coming  
They follow you, you keep running  
Don't doubt boy don't you hear something  
Gone through it if you just living  
It might just make your world different  
Just let it go you won't miss it  
It's in the look just go get it

What is that  
Could it be  
The rescue that you need  
It's not a dream, that's happening  
Hands up come with me

What is that  
Could it be  
The rescue that you need  
It's not a dream, that's happening  
Hands up come with me

Follow my lead  
We'll go where no one goes  
Everyone leaves  
We are still standing strong (standing strong)  
Listen to me love is a song I'll be the melody you'll be  
my drum

Follow my lead we'll go where no one goes  
Go  
The crew all around you keeps changing  
Come back to what you keep waiting  
There's nothing to come and save you

Just let it an infinite take you  
To a place where everything's better  
You've been waiting forever  
Live life like it don't matter it won't stop if you don't let  
it

What is that  
Could it be  
The rescue that you need  
It's not a dream, that's happening  
Hands up come with me

What is that  
Could it be  
The rescue that you need  
It's not a dream, that's happening  
Hands up come with me

Follow my lead  
We'll go where no one goes  
Everyone leaves  
We are still standing strong  
Listen to me love is a song I'll be the melody you'll be  
my drum  
Follow my lead we'll go where no one knows  
Put your hands up, put your hands up  
Hands up I'll show what it do I got my stance up  
Everybody knows this is the anthem  
Everybody knows this is the anthem

So put your hands up  
Hands up I'll show what it do I got my stance up  
Everybody knows this is the anthem  
Everybody knows this is the anthem

Follow my lead  
We'll go where no one goes  
Everyone leaves  
We are still standing strong  
Listen to me love is a song I'll be the melody you'll be  
my drum  
Follow my lead  
We'll go where no one goes  
Put your hands up
