Remember  
How we used to spend the days  
When I looking back now,  
I thinking all the crazy ways  
Remember  
The promise that we always be  
That we be right there,  
No one else, but you and me.

But now we gone our separated ways, I still remember  
those days.

We were driving in your car,  
With the top pulled down and the radio on, and our  
troubles were far  
Far awayâ€¦!  
We were driving in your car, never gonna die, we could  
live forever  
Wherever I go, I'll be there  
Driving in your car

We were  
Saying we should run away  
Go somewhere together,  
Looking for a better day.  
Aaaaaaaaah, I'm sorry.  
Sorry that it couldn't last.  
Wasn't there a great time, didn't the goodbye go fast?  
I should have been there for you.. (oh yeah)  
For all that you have gone throughâ€¦!

We were driving in your car,  
With the top pulled down and the radio on, and our  
troubles were far  
Far awayâ€¦!  
We were driving in your car, never gonna die, we could  
live forever  
Wherever I go, I'll be there  
Driving in your car

I guess we didn't know what life's about

And I guess we didn't have it all worked out  
I guess we're too blind to see, that life not always what it  
seems to be.  
Oh yeah..

We were driving in your car,  
With the top pulled down and the radio on, and our  
troubles were far  
Far away!  
We were driving in your car, never gonna die, we could  
live forever  
Wherever I go, I'll be there  
Driving in your car

We were driving in your car,  
Where the top pulled down and the radio on, and our  
troubles were far  
Far away!  
We were driving in your car, never gonna die, we could  
live forever  
Wherever I go, I'll be there  
Driving in you car
