You asked me back for more
I walked up to your door
I asked to come inside
You said to stay the night

What are the secret words
You claim you never heard from me
What code should I have cracked
For you to ask me back

With you I could see clearly
With you I understood
With you I'd live forever
With you I felt like someone good

I've walked a million miles
But I'm still around
Ain't nothing I can do
To shake the ghost of you

The cards that I've been dealt
The sting that I have felt
For all the games I've played
I guess it's time to pay

With you I could see clearly
With you I understood
With you I'd live forever
With you I felt like someone good

With you I could see clearly
With you I understood
With you I'd live forever
With you I felt like someone good

Just tell me you're alright, and tell me
That you sleep at night
I know you're there to stay
A million miles away
A million miles away
A million miles away

A million miles away
Million miles away
